

easy to use

effective in delivery

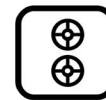

efficient in energy utilization

economical to own & operate

enduringly reliable

MIG IGBT SERIES

The eWeld NB IGBT series:

- is a IGBT series mig / mag welder
- built with the latest technology in MIG welding
- comes with an robust external wire feeder for your convenience
- designed for heavy duty workload & the capability to weld thick materials
- generates stable arc with low spatter level
- produces quality welding result with deep penetration & good weld pool
- has inbuilt protection circuitries against current & temperature extremities

| SPECIFICATION | eWeld NB-350 | eWeld NB-500 |
|------------------------------|----------------------------|----------------------------|
| Power Rating | AC 415V @ 50/60Hz | |
| Rated Input Capacity (KVA) | 11.40 | 25.5 |
| Output Current (A) | 60 - 350 | 80 - 500 |
| Output Voltage | DC16 - 36V | DC16 - 45V |
| Nominal load (10 min cycle.) | < 284A 100% nominal 50% | < 387A 100% nominal 60% |
| Welding Wire Diameter (mm) | 0.8 - 1.2 | 1.2 - 1.6 |
| Weight (kg) | 72 | 77 |
| Dimension (mm) | 570 x 350 x 470 | 620 x 350 x 500 |
